

# Working Capital Cycle

## Members of WCC:

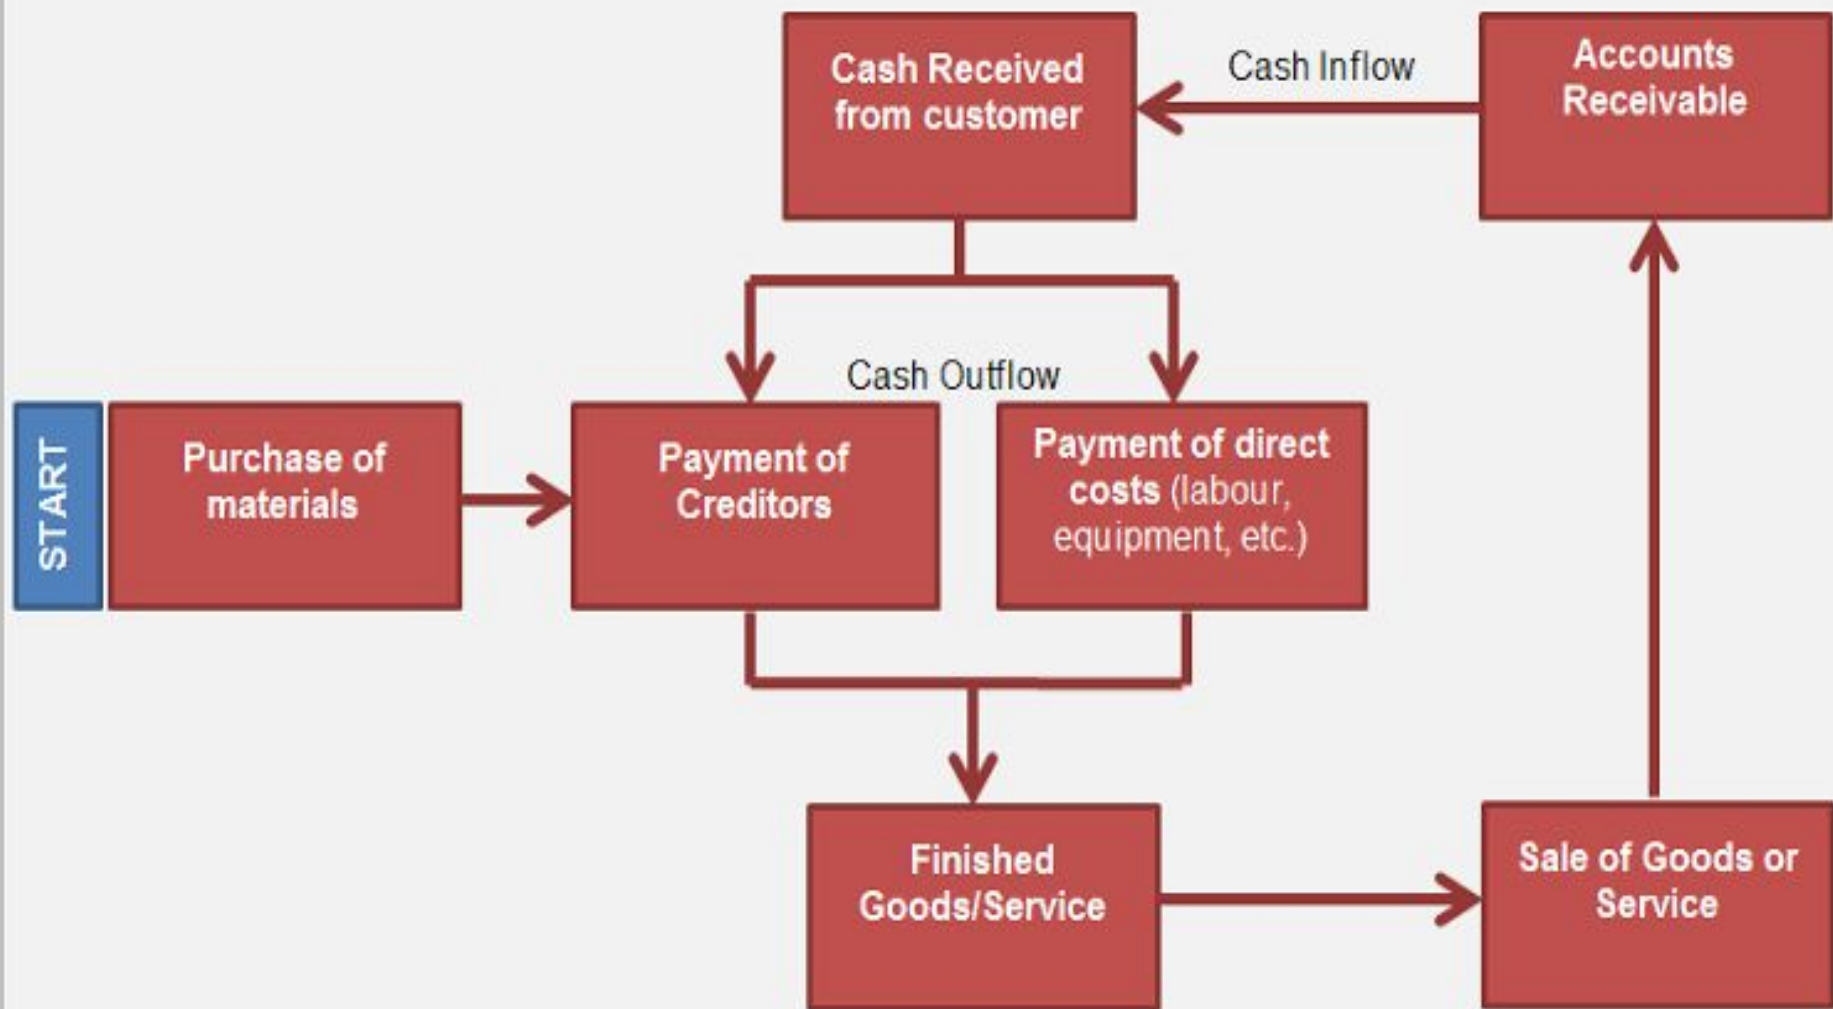

- Aakash Mahadevan (16UCC001) - Cash Manager
- Dikshit Maheshwari (16UCC030) - Raw Material Inventory Manager
- Vibhor Agarwal (16UCS209) - WIP Inventory Manager
- Yash Vekaria (16UCS221) - Warehouse Inventory Manager

# Working Capital Cycle

# What is Working Capital Cycle (WCC)?

- Cash: Physical Product in
  - Day-to-Day working of a Company
- Amount of time taken to:
  - convert net current assets and liabilities
  - Into cash
- Longer the cycle => Longer a business is without return
- Companies strive to reduce its WCC

# Objective of WCC

Cash

$\delta$ -Ability

$\delta$ -Cash

- Increasing Value
- Shortening time

**“Time is Value. Time is Money”**

₹ 100

₹ 120

₹ 140

Ideal WCC - Spiral

Growth  
=  $\delta$  on  $\delta$

₹ 100

₹ 120

₹ 145

# Components of WCC

- Cash used for:
  - Raw Material Purchase
  - Labour (Paying Wages)
- Buy Raw Material
- Manufacture of Goods (WIP)
- Sell Products to generate Revenue (δ-cash)

# Realistic WCC

## Process

- Raw material

- Raw material Inventory

- WIP Inventory

- Finished Goods

- Warehouse Inventory

## Problems

*(Problem 1)*

Cash is sitting  
(in form of raw material)

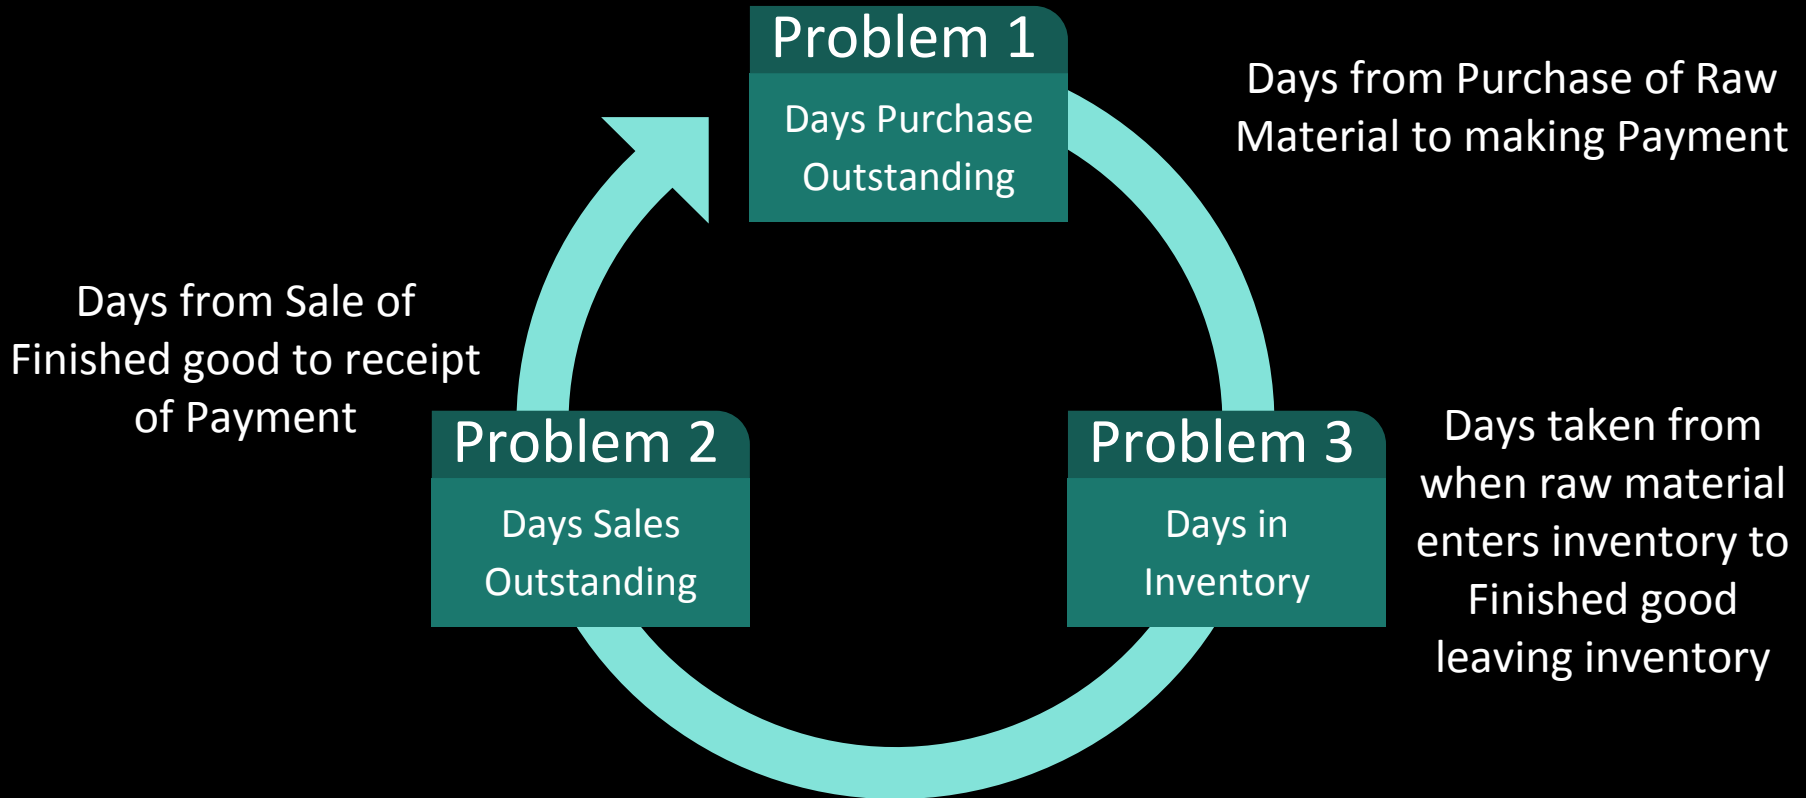

*(Problem 2)*

Cash sitting again  
(in form of finished goods)

# 3 Crucial Periods in WCC

# Credit (pay-later) Period

## Credit Types:

- Purchase Credit (Accounts Payable)
- Sale Credit (Accounts Receivable)

Cash Locking  
(*Problem 4*)

Cash - Takes Time to Unlock  
No cash immediately generated after Sale

# Motto of Cash

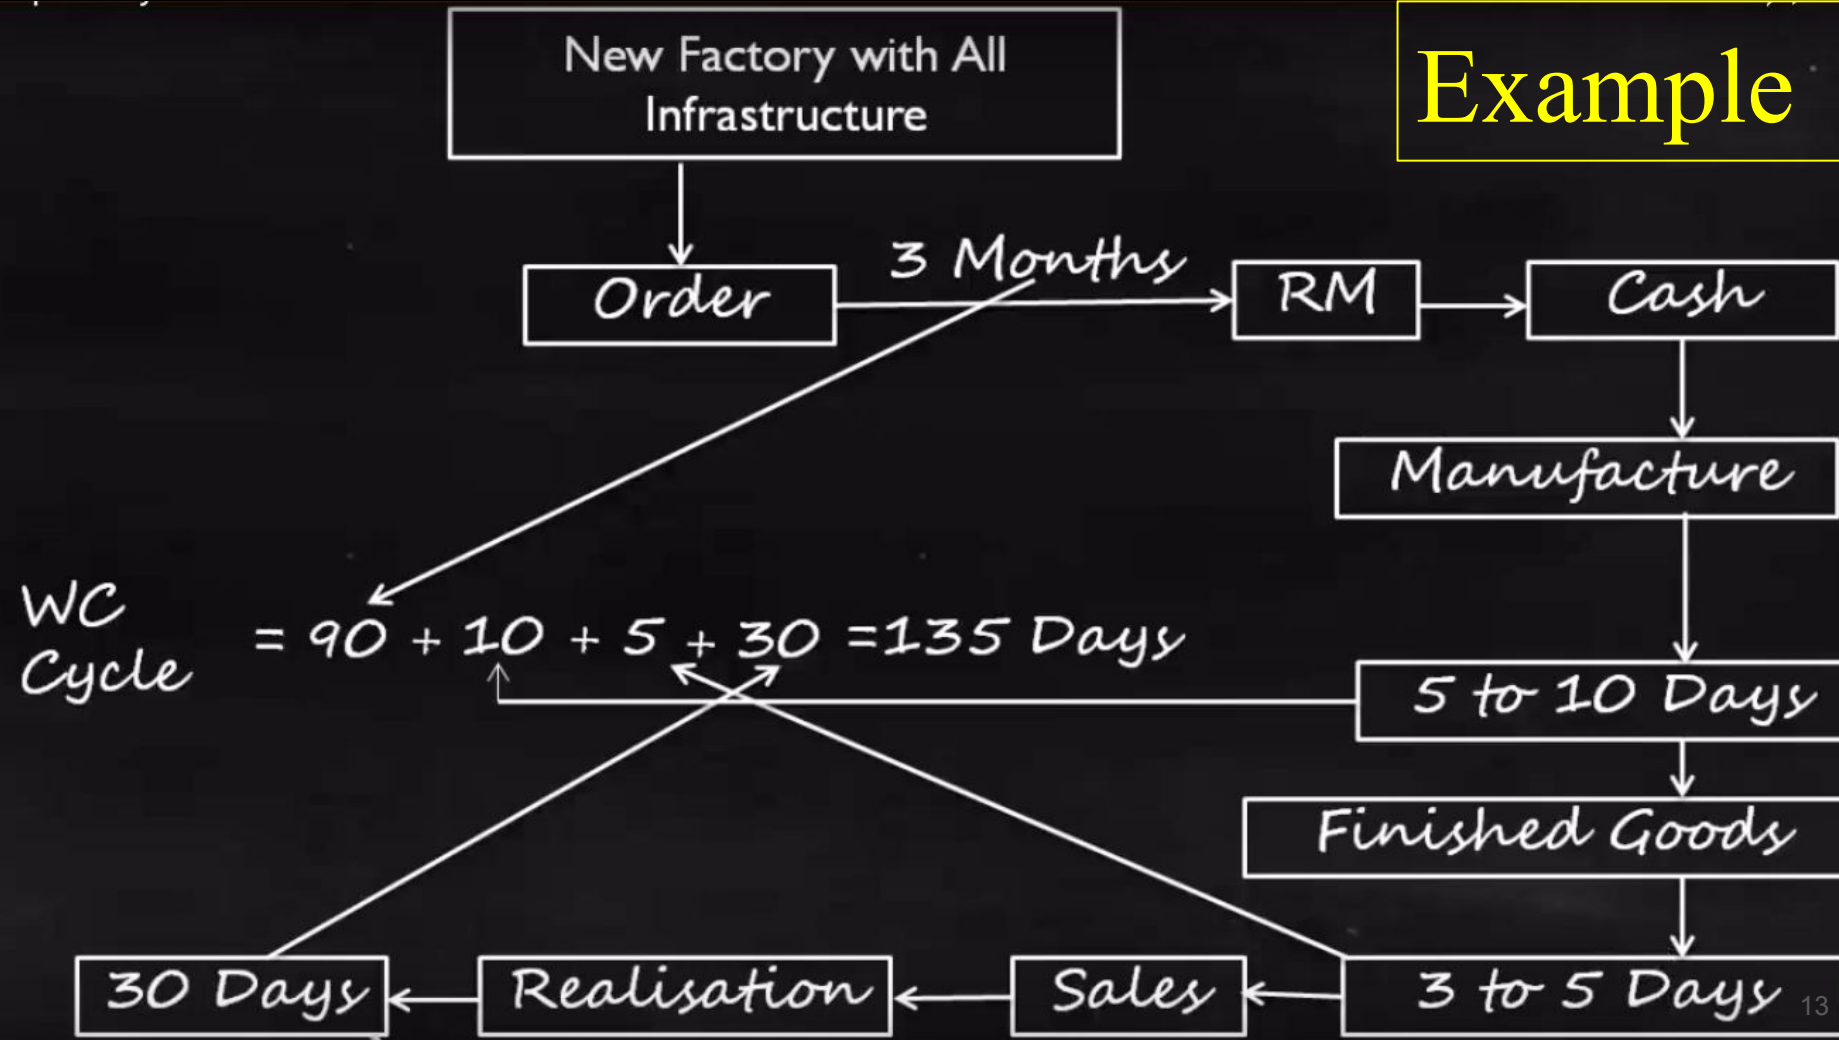

*“Make Cash - Walk, Talk & Dance”*

- How to Attain Motto?
  - To reduce 3 Periods &
  - Problems as discussed

# Process Quality v/s Product Quality

- WCC: **Process Quality**
- Speeding up WCC => More products manufactured => More δ-cash
- But on speeding up,
  - Defects should not increase
  - Product quality should be maintained
- 6-Sigma: **Product Quality**

# Example

# How can IT engineers reduce WCC?

- Technologies like IoT help reduce time issues
  - They can be optimized
- Using computers to:
  - monitor progress
  - schedule tasks
- New machines for mundane & repetitive tasks
- Better route-planning for logistical purposes

# $\delta$ -ability in Professional World

- $\delta$  (of  $\delta$ ) growth in mindset
- Adding value to skills
- Reducing time for tasks

# Key Takeaways

- Aim: To speed up WCC to create **δ-on-δ** cash:
  - Increasing **Value**
  - Shortening **Time**
- Be accustomed to improve Realistic WCC:
  - Unlocking the **Locked** Cash
    - Sitting Raw Material/Finished Good
    - Speed up Credit Periods
- Make Cash “***Walk-Talk-Dance***”
- Role as IT Engineers - Thorough Professionalism
